August 29, 2011

Attention all Cosmetology and Nail Technician Candidates.

NIC has advised us to two changes that are immediately in effect for the Cosmetology/Barber and Nail Technician Exam.

- Reference Salon Fundamentals, Pivot Point International, Inc. was changed to the 2010 version.

And this statement was added to the list of supplies under Sculptured Nail Supplies.

- Sculptured nail products (powder, primer, liquid): the product must be sealed and in its original container with the manufacturer's label. NIC strongly recommends, due to the testing environment, that odorless sculptured nail products be used during the NIC practical examinations.

Please contact me directly at 801-530-6259 if you have any questions.
