DESIGNATION OF CONTACT PERSON FOR ACCESS TO MEDICAL RECORDS

In accordance with Subsection 58-67-302(1)(j) of the Utah Code and the Federal HIPAA Regulations every physician licensed in Utah must designate a contact person and an alternate contact person for access to his/her patients' medical records and provide such information to the DOPL. Each applicant is also required to establish a method of notifying patients of the identity and location of the contact persons (*i.e. a phone number or address where patients can obtain their medical records*).

If a hospital clinic or other medical facility is the owner of your patients' medical records the facility's records department could be listed as the primary contact. You may list yourself as the primary contact but you must also provide an alternate contact.

Please note that this statute became law in 2005 due to complaints from patients who could not gain access to their medical records. DOPL's responsibility is to collect each physician's contact information and to provide it to patients upon request. If you have not provided accurate information to DOPL you could be investigated for unprofessional conduct.
