

Endorsement to Utah: Certified Nurse Midwife

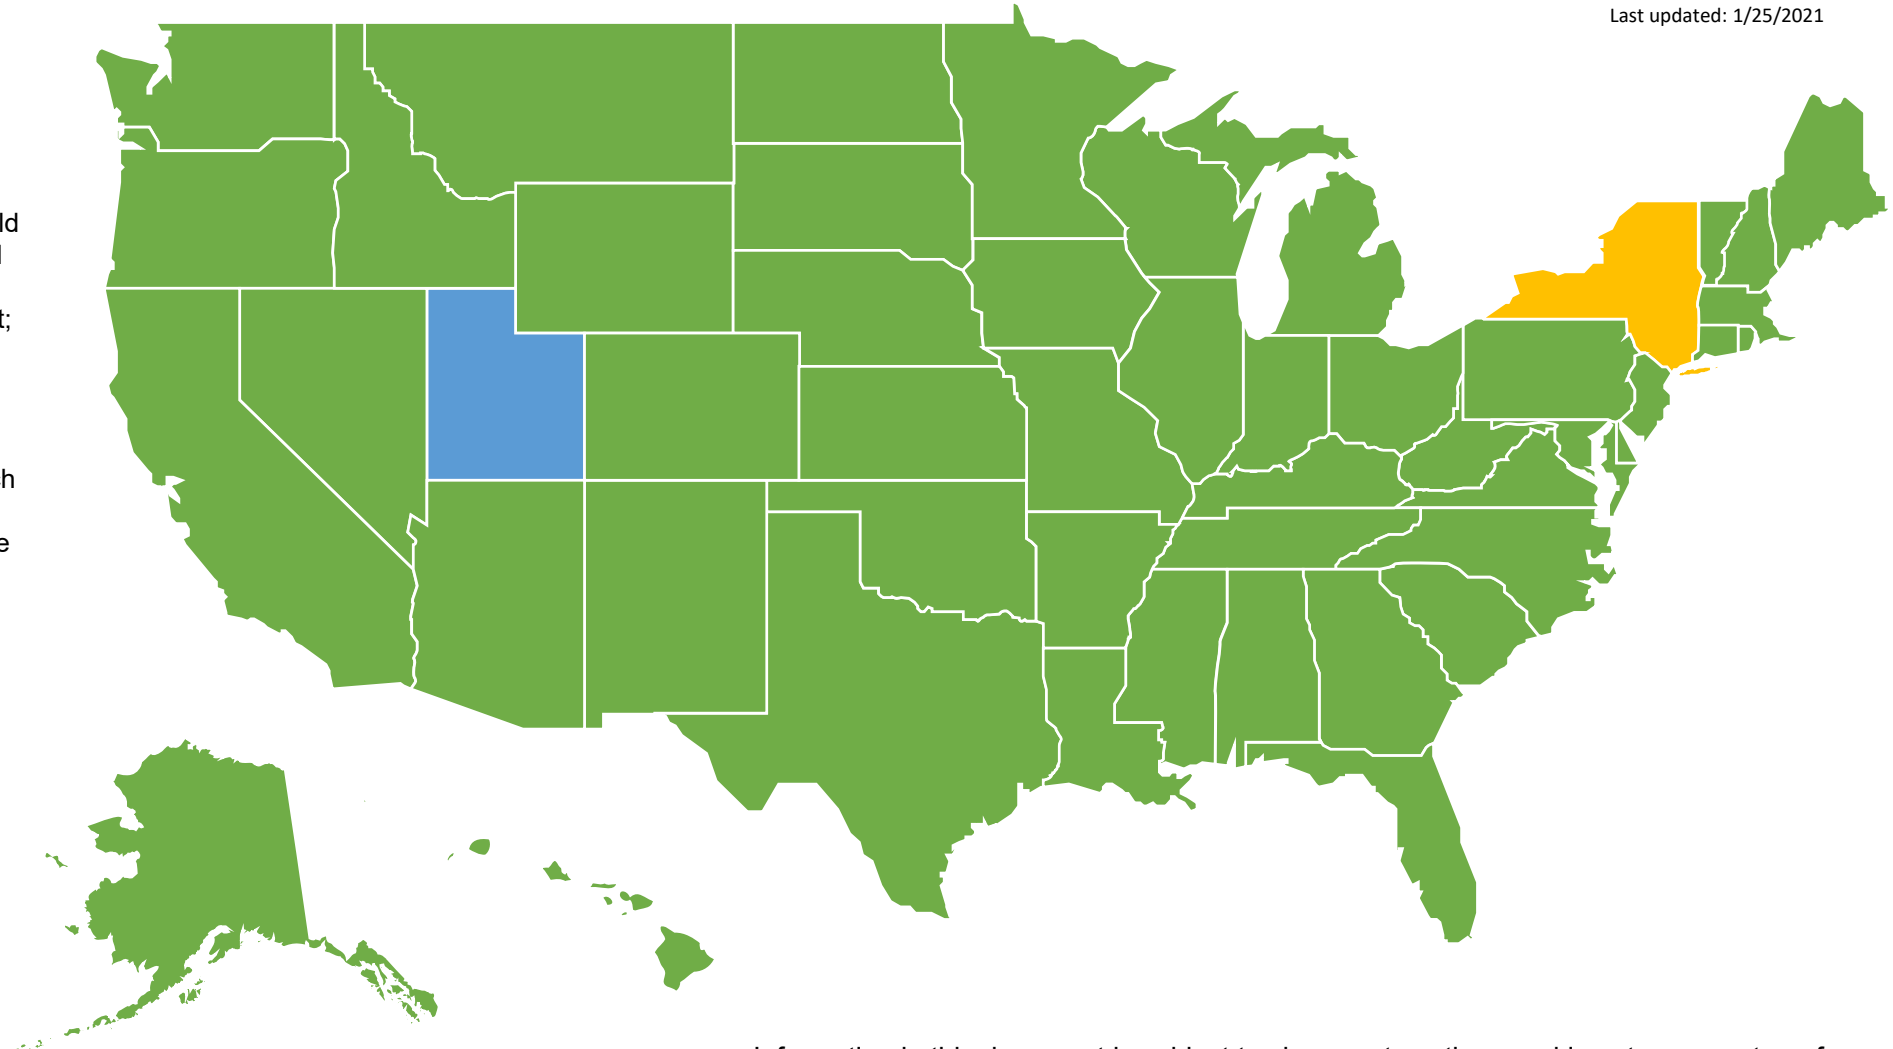

Utah Statute: 58-44a Qualifications:

Each applicant for licensure as certified nurse midwife shall:

- at the time of application for licensure hold a license in good standing or be qualified for a license as a registered nurse under Title 58, Chapter 31b, Nurse Practice Act;
- have completed:
 - (i) a certified nurse midwifery education program accredited by the ACME; or
 - (ii) a nurse midwifery education program located outside of the United States which is approved by the division and is equivalent to a program accredited by the ACME
- Pass the national certifying exam administered by AMCB.

KEY
Equivalent to Utah License
Additional Documentation Needed, see below
No Equivalent State or Territory License to Utah, see below

Last updated: 1/25/2021

Additional Jurisdictions
District of Columbia
American Samoa
Guam
Northern Mariana Islands
Puerto Rico
U.S. Virgin Islands

Information in this document is subject to change at anytime, and is not a guarantee of meeting the requirements for licensure. Please see the next page for additional instructions.

Application Process

To apply to Utah using one of the licenses deemed equivalent (jurisdictions in green on the above map), you must have held the license type indicated on the map for at least one year. Additionally, the license must be active and in good standing.

In addition to a complete application for licensure and the appropriate fees, you must also submit an official verification of your license and demonstrate current certification as a Certified Nurse Midwife from AMCB. Note: Certification as a Certified Midwife *is not* equivalent.

If you have been subject to previous disciplinary actions on any professional license or answer yes to any of the questions found on the qualifying questionnaires within the application, you will be required to provide additional information regarding those incidents. See the application for complete instructions.

If your practice in the state of Utah will include administering, possession or prescribing of controlled substances, you must also apply for the Utah Controlled Substance License. See our application for additional instructions.

Additional Requirements

For jurisdictions that do not meet the minimum requirements for endorsement outlined in 58-1-302, applicants may still be able to use their current license to satisfy some of the requirements for licensure. In addition to a license verification from the jurisdiction, see the information below needed to correct deficiencies in endorsement for specific states or territories.

Jurisdiction	Additional Requirements
New York	Verification of your registered nurse license that has been active and in good standing for at least one year.

Jurisdictions with no equivalent State or Territory-Wide License:

If no equivalent state or territory-wide license is issued by a jurisdiction, local jurisdiction licenses (such as those issued by a city or county) or non-equivalent state or territory licenses may be used to assist with documentation of compliance with some Utah qualifications. Applicants must submit a verification of the license they feel may demonstrate components of Utah qualifications that includes documentation of hours, exams, and other qualifications completed to obtain the license. Additionally, providing information regarding the scope of the license will assist the Division in determining equivalency.

Note: Utah requires that CNMs maintain their national certification as a condition for renewal of licensure.
