Utah Guidance for Diabetic Therapeutic Equivalents Approved June 27, 2023

In compliance with Utah Code §58-17b-608.2(7)(f) a Utah licensed pharmacist may dispense a therapeutic equivalent when filling a prescription for supplies for treating diabetes

Under Subsections 58-17b-608.2(7)(f) and R156-17b-612b(2), a pharmacist may dispense a therapeutic equivalent when filling a prescription for the following supplies for treating diabetes:

- (a) insulin pump supplies;
- (b) continuous glucose monitoring supplies;
- (c) alcohol prep pads; and
- (d) glucagon products.
